Correction of: <https://www.researchprotocols.org/2022/8/e39509>

(*JMIR Res Protoc* 2022;11(10):e42713) doi: [10.2196/42713](https://doi.org/10.2196/42713)

In “Social Support as a Stress Buffer or Stress Amplifier and the Moderating Role of Implicit Motives: Protocol for a Randomized Study” (*JMIR Res Protoc* 2022;11(8):e39509) the authors noted three errors in the metadata.

First, in the originally published article, the authorship order was incorrect. The article was originally published with the following authorship order:

*Julia Schüler, Alisa Haufler, Beate Ditzen*

In the corrected article, the authorship order has been updated as follows:

*Alisa Haufler, Beate Ditzen, Julia Schüler*

Second, *Beate Ditzen* was listed as the Corresponding Author. However, the Corresponding Author has now been changed to *Julia Schüler*.

Third, one affiliation was incomplete and one affiliation was omitted for author Beate Ditzen. This author's affiliation was originally published as follows:

*<sup>2</sup>Institute for Medical Psychology, Heidelberg, Germany*

Beate Ditzen's affiliations have now been updated to:

*<sup>2</sup>Institute for Medical Psychology, Heidelberg University Hospital, Heidelberg, Germany*

*<sup>3</sup>Heidelberg University, Heidelberg, Germany*

The correction will appear in the online version of the paper on the JMIR Publications website on October 25, 2022, together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.

*This is a non-peer-reviewed article. Submitted 14.09.22; accepted 15.09.22; published 25.10.22.*
