In “A Virtual Hospital Model of Care for Low Back Pain, Back@Home: Protocol for a Hybrid Effectiveness-Implementation Type-I Study” (*JMIR Res Protoc* 2024;13:e50146) the authors noted the following errors.

In the originally published article, the group author Back@Home Investigators was omitted from the authorship list. Furthermore, the equal contribution note was erroneously assigned to all authors when it should have only been assigned to the first two authors, Alla Melman and Min Jiat Teng.

The authorship list was originally published as:

*Alla Melman\**, *Min Jiat Teng\**, *Danielle M Coombs\**, *Qiang Li\**, *Laurent Billot\**, *Thomas Lung\**, *Eileen Rogan\**, *Mona Marabani\**, *Owen Hutchings\**, *Chris G Maher\**, *Gustavo C Machado\**

*\*all authors contributed equally*

This has been changed to:

*Alla Melman\**, *Min Jiat Teng\**, *Danielle M Coombs*, *Qiang Li*, *Laurent Billot*, *Thomas Lung*, *Eileen Rogan*,

*Mona Marabani*, *Owen Hutchings*, *Chris G Maher*, *Gustavo C Machado*, *Back@Home Investigators*

*\*these authors contributed equally*

Then, the *Acknowledgments* section was originally published as follows:

*This study has received a Hospitals Contribution Fund (HCF) Research Grant: Optimizing outcomes for patients with back pain by preventing hospital admission (Aus \$315,000 [US \$207,500]), HCF Health Services Research Grant, HCF Research Foundation. We would like to thank the Back@Home collaborators (Bethan Richards, Ananthila Anandacoomarasamy, Kirsten McCaffery, Miranda Shaw, Cassandra Dearing, Ian Harris, Rachelle Buchbinder, Chris Needs, James Edwards, Narcyz Ghinea, Michael Dinh, Dane Chalkley, and Rachael Dodd) for their assistance with the project planning and governance.*

The correction will appear in the online version of the paper on the JMIR Publications website on May 16, 2024, together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.
